PAOLO PERROTTA

B3844 - PYTHON FOR BUSINESS LAB

2025/26

DAY 4

ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA

LAST WEEK'S EXERCISES

TODAY'S LESSON

- Two notebooks + the Student Survey
- Probably the hardest topics
- You might not complete every exercise today—and that's OK
- Do the exercises you can, and save the rest for home
- Studying together is always the best way
- Remember that you can reach me off-hours via mail
- Don't rush it

7. “WHILE” LOOPS

“WHILE” LOOPS

- `while`
- **Infinite loops**

NOTEBOOK: “WHILE” LOOPS

40’

- **Open** `https://github.com/nusco/python-unibo/`
- **Run through the “Lesson 4: *while* Loops” notebook**
- **Reminder: Do what you can now, leave the rest for home**

STUDENT SURVEY

- About 15’
- This is strictly anonymous
- Feedback is welcome

8. LISTS AND “FOR” LOOPS

DEALING WITH MULTIPLE VALUES

- Variables with multiple values
- Defining lists
- Accessing and assigning elements
- Appending to lists
- Lists vs. tuples
- Iterating over a list
- Optional: list comprehension

NOTEBOOK: LOOPS AND LISTS

Until the end of the lesson

- **Open** `https://github.com/nusco/python-unibo/`
- **Run through the “Lesson 4: Lists” notebook**
- **Reminder: Do what you can now, leave the rest for home**
